

The most useful document in the whole process. Racks drawn from a real list hold real guns; racks drawn from an assumption hold most of them. Estimates are fine throughout — we refine everything at survey. **We do not want serial numbers or certificate numbers.**

## WHAT YOU THINK YOU NEED

- ☐ A single gun cabinet
- ☐ Several cabinets, or a run
- ☐ A fitted gun room
- ☐ Fishing or rod storage
- ☐ Not sure — tell me

Where would it go?

When would you like it in place?

Rough budget, if you have one

THE COLLECTION — NUMBERS ONLY, ESTIMATES FINE

Shotguns — side-by-side

## Air rifles

Shotguns — over-and-under

Muzzle-loading / black powder

Shotguns — semi-auto or pump

Antique or display pieces

Rifles

Expected to add in five years

...of those, scopes left mounted

Guns stored cased, not racked

Longest gun, overall, if you know it

Any pairs that should stand together?

Anything unusual we should know — oversized pieces, a gun that must stay cased, something to be displayed rather than racked

## AMMUNITION

Cartridges to store, in slabs of 250

Rifle ammunition or reloading equipment?

Does your certificate carry a specific condition about ammunition storage? If so, what does it say?

*Conditions vary between forces and between certificates. If yours says something specific, we build to it rather than to a general assumption.*

#### WHAT ELSE LIVES IN THE ROOM

- |                                                    |                                                         |                                                   |
|----------------------------------------------------|---------------------------------------------------------|---------------------------------------------------|
| <input type="checkbox"/> Cleaning table or bench   | <input type="checkbox"/> Fishing rods, reels and tackle | <input type="checkbox"/> Dog beds, leads and feed |
| <input type="checkbox"/> Cartridge and kit drawers | <input type="checkbox"/> Waders, nets and wet kit       | <input type="checkbox"/> Safe for other valuables |
| <input type="checkbox"/> Trophy or display cabinet | <input type="checkbox"/> Boots and coats                | <input type="checkbox"/> Somewhere to sit         |

#### THE ROOM ITSELF

Wall construction where it will be fixed

Where in the building? (ground, first, cellar, outbuilding)

Is the room heated?

Power available nearby?

Approximate dimensions

Sketch of the room, if it helps — walls, door, window, radiator, sockets. Rough is fine; four photographs from four corners tell us as much.

#### CERTIFICATES AND LICENSING

What do you hold? (SGC / FAC / both)

Which police force area?

Spoken to your FEO about this?

*We agree the specification with your licensing department in writing before anything is made. If you have already had the conversation, it saves us repeating it.*

#### ANYTHING ELSE

The house, the architect, what you have seen elsewhere and liked — and what you have seen and did not

How did you come across us?

Date

**Send it back.** Photograph or scan and email to [sales@reeveandco.com](mailto:sales@reeveandco.com), or post to Sporting Cabinetmakers, Stonham Road, Mickfield, Stowmarket, Suffolk IP14 5LS. We will read it and telephone you, usually within a few working days, and tell you which of the three things you actually need — a cabinet, a run of them, or a room — with an indication of cost before anybody surveys anything. If you would rather do all of this on the telephone, ring 01449 710500 and we will fill it in at our end.

**Discretion.** We use what you send to prepare your enquiry and for nothing else. We do not sell or share enquiry information, and we do not publish client names, addresses or photographs of completed work without written permission. We never ask for serial numbers or certificate numbers, and we would rather not hold them.
